Juan David Trujillo

Software Developer

Cali, Colombia

ABOUT ME

I am passionate about solving problems through technology. My goal is to grow in software development and contribute to innovative projects that transform communities. I am proactive, self-taught and deeply curious. I am always looking for new ways to grow and add value with what I learn.

More about me

EXPERIENCIA

Full-stack Developer

Saki Multimedia   Cali, Colombia

- Collaborated with an international team to provide web development and support for multiple websites.
- Led the implementation of CI/CD pipelines in Bitbucket to automate integration and deployment processes.
- Designed and implemented relational databases to support a custom web development project.

PROYECTOS

Desarrollado flujo N8n - Dasboard web React

Simon IA - Chatbot WhatsApp

Cree un chatbot financiero en WhatsApp. Permite al usuario registrar gastos, ingresos, generar reportes financieros y realizar preguntas personalizadas a partir de las transacciones de un usuario. Para la implementación del flujo se uso N8n, Supabase y Evolution Api. Ver mas
